

NEWS ALERT

INTELLICHECK'S AGE ID FEATURED ON FIVE TELEVISION STATIONS ACROSS SOUTH

JERICHO, NEW YORK – May 31, 2016 - Intellicheck's Age ID[®], an innovative technology solution that helps prevent the illegal sale of alcohol and other age-restricted products to minors, is making news. Age ID has been featured in news stories on five television stations including FOX television's WDBD-TV in Jackson, Mississippi and on Biloxi, Mississippi's ABC affiliate, WLOX-TV where it was featured on Good Morning Mississippi. The sophisticated identity authentication and validation solution has also been the subject of news stories on CBS affiliate WCSC-TV in Charleston, South Carolina, NBC affiliate WSFA-TV in Selma, Alabama and NBC's WLVT-TV in Jackson, Mississippi.

Intellicheck's CEO, Dr. William Roof says retailers and parents are interested in Age ID because of its effectiveness. "Retailers are facing difficult challenges because the technology used to generate fake IDs has become so advanced it makes the fraudulent IDs very difficult to spot with the human eye. These fake IDs are readily available online and that's particularly frightening for parent, as well. Age ID is an effective and inexpensive industry leading technology solution that provides real-time, accurate information that can prevent the sale of age-restricted products like alcohol, tobacco and marijuana to young people. This technology solution makes a critical difference in stopping minors from acting on decisions that can have life ending or life altering consequences."

[Intellicheck Mobilisa](#), Inc. (NYSE MKT:IDN), is an industry leader in threat identification and identity authentication, verification and validation solutions. Intellicheck's Age ID identity authentication and validation solution reads the barcode data encoded on driver licenses and government issued IDs, instantly verifying the authenticity of the ID and age information via a mobile device or with an integrated point of sale tool. Age ID checks the bar code data against information in Intellicheck's proprietary, comprehensive database, which is updated on an ongoing basis to ensure information is timely and accurate. It provides the most up-to-date solution to the problem of spotting fake and altered IDs with its ability to read more than 200 unique DMV barcode formats from every U.S. state and Canadian

Intellicheck holds 25 patents, with nine patents pending, pertaining to threat identification and identification technology. The Company's real-time identity authentication and validation solutions support customers in the retail, hospitality, national defense, law enforcement, and financial markets.

Intellicheck's products scan/image, authenticate and analyze components of identity documents including driver licenses, military identification cards and other government forms of identification containing magnetic stripe, barcode and smart chip information. Once extracted from the identity card, the information can be used to provide safety, security and efficiencies throughout these markets.
