

FOR IMMEDIATE RELEASE

Age ID Woodstock Premieres With Nationally Recognized Concession, Events and Catering Company

Advanced Technology Does Not Need Connectivity To Catch Fake IDs

JERICHO, NEW YORK – June 8, 2017 – A nationally prominent outdoor event concession company is taking steps to prevent underage access to alcohol with Intellicheck’s new offline mobile technology solution. [Age ID Woodstock](#) is Intellicheck's (NYSE MKT:IDN) newest addition to the company’s industry leading Age ID™ product line. The state-of-the-art technology solution delivers real-time, accurate ID authentication to instantly identify fake and altered IDs ensuring compliance with laws governing the sale of age-restricted products, such as alcohol, regardless of connectivity. Woodstock is the ideal solution for sports venues, stadiums, concerts, festivals and theater locations across the nation where internet coverage is unavailable, inaccessible or unreliable.

Intellicheck has taken another pioneering step forward in providing a powerful, innovative technology solution that addresses the challenges associated with the absence of reliable network coverage, including connectivity and data throughput degradation, often experienced when large crowds overwhelm cellular network capacities. With Age ID Woodstock, businesses no longer need to rely on the outdated, unreliable and often legally unacceptable practice of requiring employees to visually inspect IDs to determine if they are fake or altered, and to calculate the customer’s age manually.

Intellicheck CEO Dr. William Roof commented, "This large national concession company takes its corporate social responsibility very seriously. Using Age ID Woodstock, we believe that they will curb underage drinking and prevent fraud wherever their business takes them, underscoring their commitment to the communities and customers they serve." He added, "Age ID Woodstock is the latest edition to our robust line of multi-purpose, cutting-edge technology solutions that meet the needs of financial, retail, hospitality and transportation industry clients as well as our clients in law enforcement, national defense and homeland security. Using Age ID Woodstock at a recent, iconic outdoor event, our concessioner partner identified over 2,500 fake IDs and, in our estimation, possibly prevented a large number of tragedies we often see as a result of underage drinking. Visit the [Age ID Woodstock](#) section of our website at intellicheck.com and see the stacks of fake IDs that were presented by minors attempting to purchase alcohol." Dr. Roof concluded, "We are very excited about how

impressively our products perform and we will continue our focus on developing world-class products that deliver value to our clients, our communities and our shareholders.”

Age ID Woodstock delivers real-time ID authentication on mobile devices, with or without network connectivity. The advanced technology solution reads the data encoded on driver licenses and government issued IDs, verifying the authenticity of the ID and age information. Effective and easy-to-use, a seller of age-restricted products can use Age ID Woodstock offline or online. Highlighted fields ensure staff has a clear alert as to whether a sale should be completed.

Safe Harbor Statement

Statements in this news release about Intellicheck’s future expectations, including: the advantages of our products, future demand for Intellicheck’s existing and future products, whether revenue and other financial metrics will improve in future periods, whether Intellicheck will be able to execute its turn-around plan or whether successful execution of the plan will result in increased revenues, whether sales of our products will continue at historic levels or increase, whether brand value and market awareness will grow, whether the Company can leverage existing partnerships or enter into new ones, and all other statements in this release, other than historical facts, are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 (PSLRA). These statements, which express management’s current views concerning future events, trends, contingencies or results, appear at various places in this website and use words like “anticipate,” “assume,” “believe,” “continue,” “estimate,” “expect,” “forecast,” “future,” “intend,” “plan,” “potential,” “predict,” “project,” “strategy,” “target” and similar terms, and future or conditional tense verbs like “could,” “may,” “might,” “should,” “will” and “would” are forward-looking statements within the meaning of the PSLRA. This statement is included for the express purpose of availing Intellicheck, Inc. of the protections of the safe harbor provisions of the PSLRA. It is important to note that actual results and ultimate corporate actions could differ materially from those in such forward-looking statements based on such factors as market acceptance of Intellicheck’s products and the presently anticipated growth in the commercial adoption of the Company’s products and services, changing levels of demand for Intellicheck’s current and future products, Intellicheck’s ability to reduce or maintain expenses while increasing sales, customer results achieved using our products in both the short and long term, success of future research and development activities, Intellicheck’s ability to successfully manufacture, market and sell its products, Intellicheck’s ability to manufacture its products in sufficient quantities to meet demand within required delivery time periods while meeting its quality control standards, any delays or difficulties in the Company’s supply chain, the success of the Company’s sales and marketing efforts coupled with the typically long sales and implementation cycle for its products, Intellicheck’s ability to enforce its intellectual property rights, changes in laws and regulations applicable to the Company’s products, the Company’s continued ability to access government-provided data, the risks inherent in doing business with the government including audits and contract cancellations, liability resulting from any security breaches or product failure, and other risks detailed from time to time in Intellicheck’s reports filed with the SEC. We do not assume any obligation to update the forward-looking information.
