Legendary Concert Venue Selects Age ID to Prevent Alcohol Sales to Minors

Industry Leading Technology Solution Detects Fake IDs in Real Time

JERICHO, NEW YORK – June 22, 2017 - [Intellicheck, Inc.](#) (NYSE MKT:IDN), an industry leader in delivering real-time threat identification and identification authentication technology solutions that provide the antivirus to the epidemic of counterfeit IDs, today announced that one of the nation’s most renowned and beautiful amphitheaters is using Age ID™ to ensure compliance with laws governing the sale of alcohol to minors and to combat underage drinking.

“Intellicheck’s state-of-the-art technology solutions make it possible for businesses to stay in compliance with local and state laws governing the sale of age-restricted products. This advances their role as good neighbors who are committed to doing their part in preventing access to these products by minors,” said Dr. William Roof, President and CEO, Intellicheck. “This partnership reflects our continued success in expanding our market strength in key verticals. It is one more example of the results we recognize through our continued focus on addressing market needs with innovative, cutting-edge technologies.”

Intellicheck’s new partner is located near the nation’s capital. The acclaimed concert venue enjoys a reputation for exceptional outdoor acoustics and for its success in booking some of the most prestigious acts in music along with a diverse range of artists and events.

Age ID reads the data encoded on driver licenses and government issued IDs, verifying the authenticity of the ID and age information in real time. It can be deployed on mobile devices including smartphones and tablets and can be integrated with point-of-sale solutions. The Age ID product line includes offline as well as online easy-to-use solutions that are quickly implemented and draw on a comprehensive, proprietary database, updated on an ongoing basis, to ensure information is timely and accurate. Intellicheck offers the most up-to-date solutions to the problem of spotting fake and altered IDs with their ability to read more than 250 unique DMV barcode formats from every U.S. state and populated territories, all Canadian provinces, and all Mexican States where driver licenses include 2-D barcodes.
