

Florida's Potatopia Deters Underage Drinking With Intellicheck's Age ID

*Fast Casual Restaurant Protects Customers and Communities
with Industry Leading Technology Solution*

JERICHO, NEW YORK – June 29, 2017 – Potatopia's Broward County, Florida restaurant is using Intellicheck's (NYSE MKT:IDN) Age ID™ to prevent the sale of alcoholic beverages to underage customers. The fast casual restaurant's employees are using the state-of-the-art technology solution to scan driver licenses and other forms of identification to detect altered and fake IDs.

Potatopia is quickly becoming an established part of the fast casual restaurant scene with its unique take on daily meal options that feature a variety of potato styles that serve as a base for a wide selection of fresh toppings along with drink selections that include beer and wine. The rapidly growing restaurant chain has plans for continued expansion across the country. The company is also planning to open 45 restaurants in Canada in addition to its future locations in the Middle East and China.

Potatopia franchise owner Bill Bulmer says his Tower Shops location in Davie, Florida is surrounded by five universities in addition to numerous residential communities. For Bulmer, Age ID will make an important difference in many ways. He explained that it is not just about making sure his business is in compliance with laws that prohibit the sale of alcoholic beverages to minors. He focuses on personal and corporate responsibility as well. "I feel a personal responsibility to the customers and communities we serve. It's about doing the right things in the right ways. We have such a great response and wonderful customers from our college community and our neighborhoods and we want them to know that we care about them, their potential and their future. This is something our company feels strongly about, too." Bulmer worries that young people don't understand how easily bad choices can lead to terrible outcomes. "I have a personal perspective on the risks of drunk driving. When I was 16 years old, I was run over by a drunk driver and my back was broken in three places."

Intellicheck CEO Dr. William Roof said Age ID will help Potatopia achieve its goals. "We are excited about our partnership with Potatopia and believe we offer the best solution to helping them meet their legal and social obligations. We look forward to growing our partnership as Potatopia implements its plans for nationwide advancement. We are also very pleased by the expanding adoption of our industry leading technology solution in the hospitality market. We understand the difficult challenges facing the restaurant industry in efforts to keep alcoholic beverages out of the hands of minors. With the proliferation of sophisticated fake IDs, employees

have a hard time spotting them. This is a safety challenge that raises compliance concerns for businesses that must adhere to the laws and regulations governing the sale of age-restricted products. We are confident Age ID will make a significant difference for Potatopia as it has for so many businesses across the country that face the problem of spotting fake credentials used by minors to make illegal alcohol purchases,” he said.

Age ID reads the data encoded on driver licenses and government issued IDs, authenticating the ID and age information in real-time. It can be deployed on mobile devices including smartphones and tablets and can be integrated with point-of-sale solutions. Age ID draws on a comprehensive proprietary database, updated on an ongoing basis, to ensure ID authentication is timely and accurate. It provides the most up-to-date solution to the problem of spotting fake and altered IDs with its ability to read more than 250 unique DMV barcode formats from every U.S. state and populated territories, all Canadian provinces, and all Mexican States where driver licenses include 2-D barcodes.

Safe Harbor Statement

Statements in this news release about Intellicheck’s future expectations, including: the advantages of our products, future demand for Intellicheck’s existing and future products, whether revenue and other financial metrics will improve in future periods, whether Intellicheck will be able to execute its turn-around plan or whether successful execution of the plan will result in increased revenues, whether sales of our products will continue at historic levels or increase, whether brand value and market awareness will grow, whether the Company can leverage existing partnerships or enter into new ones, and all other statements in this release, other than historical facts, are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 (PSLRA). These statements, which express management’s current views concerning future events, trends, contingencies or results, appear at various places in this website and use words like “anticipate,” “assume,” “believe,” “continue,” “estimate,” “expect,” “forecast,” “future,” “intend,” “plan,” “potential,” “predict,” “project,” “strategy,” “target” and similar terms, and future or conditional tense verbs like “could,” “may,” “might,” “should,” “will” and “would” are forward-looking statements within the meaning of the PSLRA. This statement is included for the express purpose of availing Intellicheck, Inc. of the protections of the safe harbor provisions of the PSLRA. It is important to note that actual results and ultimate corporate actions could differ materially from those in such forward-looking statements based on such factors as market acceptance of Intellicheck’s products and the presently anticipated growth in the commercial adoption of the Company’s products and services, changing levels of demand for Intellicheck’s current and future products, Intellicheck’s ability to reduce or maintain expenses while increasing sales, customer results achieved using our products in both the short and long term, success of future research and development activities, Intellicheck’s ability to successfully manufacture, market and sell its products, Intellicheck’s ability to manufacture its products in sufficient quantities to meet demand within required delivery time periods while meeting its quality control standards, any delays or difficulties in the Company’s supply chain, the success of the Company’s sales and marketing efforts coupled with the typically long sales and

implementation cycle for its products, Intellicheck's ability to enforce its intellectual property rights, changes in laws and regulations applicable to the Company's products, the Company's continued ability to access government-provided data, the risks inherent in doing business with the government including audits and contract cancellations, liability resulting from any security breaches or product failure, and other risks detailed from time to time in Intellicheck's reports filed with the SEC. We do not assume any obligation to update the forward-looking information.
