

Mid-Atlantic Police Department Deploys Intellicheck's Age ID to Combat Underage Drinking

JERICHO, NY – January 17, 2018 – [Intellicheck](#) (NYSE AMERICAN: IDN), a trusted industry leader in real time identification authentication and threat identification technology solutions, today announced that the police officers of a mid-Atlantic police department are now using [Age ID™](#) to further the enforcement of laws and regulations that prohibit the sale of alcoholic beverages and other age restricted products to minors. The state-of-the-art technology solution is used to quickly authenticate driver licenses and other forms of government-issued identification to spot altered and fake IDs.

“In this high-tech age, law enforcement agencies and businesses have a critical need for the right technology to keep age-restricted products like alcohol, cannabis, and tobacco out of the hands of young people. We are seeing expanding adoption of Age ID because it has proven to be an extremely effective and efficient tool for law enforcement agencies and businesses across the country,” said Intellicheck Interim CEO Bill White.

The police department's sworn police officers protect the safety of the community, which is also home to a recognized university with an enrollment of more than 30,000 students as well as a large faculty and staff. The department's duties include its work with the alcohol beverage control agency law enforcement division to perform details to check for underage drinking in the community.

Age ID verifies the authenticity of driver licenses and other bar-coded, government issued IDs in real-time. It can be deployed on mobile devices including smartphones and tablets. Powerful, economical and easy to adopt and use, Age ID draws on a comprehensive database, updated on an ongoing basis, to ensure information is timely and accurate. Age ID accurately reads unique DMV barcode formats from every U.S. state and populated territory, all Canadian provinces, and all Mexican States where driver licenses include 2-D barcodes.

Safe Harbor Statement

Statements in this news release about Intellicheck's future expectations, including: the advantages of our products, future demand for Intellicheck's existing and future products, whether revenue and other financial metrics will improve in future periods, whether Intellicheck will be able to execute its turn-around plan or whether successful execution of the plan will result in increased revenues, whether sales of our products will continue at historic levels or increase, whether brand value and market awareness will grow, whether the Company can leverage existing partnerships or enter into new ones, and all other statements in this release, other than historical facts, are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 (PSLRA). These statements, which express management's current views concerning future events, trends, contingencies or results, appear at various places in this website and use words like "anticipate," "assume," "believe," "continue," "estimate," "expect," "forecast," "future," "intend," "plan," "potential," "predict," "project," "strategy," "target" and similar terms, and future or conditional tense verbs like "could," "may," "might," "should," "will" and "would" are forward-looking statements within the meaning of the PSLRA. This statement is included for the express purpose of availing Intellicheck, Inc. of the protections of the safe harbor provisions of the PSLRA. It is important to note that actual results and ultimate corporate actions could differ materially from those in such forward-looking statements based on such factors as market acceptance of Intellicheck's products and the presently anticipated growth in the commercial adoption of the Company's products and services, changing levels of demand for Intellicheck's current and future products, Intellicheck's ability to reduce or maintain expenses while increasing sales, customer results achieved using our products in both the short and long term, success of future research and development activities, Intellicheck's ability to successfully manufacture, market and sell its products, Intellicheck's ability to manufacture its products in sufficient quantities to meet demand within required delivery time periods while meeting its quality control standards, any delays or difficulties in the Company's supply chain, the success of the Company's sales and marketing efforts coupled with the typically long sales and implementation cycle for its products, Intellicheck's ability to enforce its intellectual property rights, changes in laws and regulations applicable to the Company's products, the Company's continued ability to access government-provided data, the risks inherent in doing business with the government including audits and contract cancellations, liability resulting from any security breaches or product failure, and other risks detailed from time to time in Intellicheck's reports filed with the SEC. We do not assume any obligation to update the forward-looking information.
