

Southern Alcohol Law Enforcement Agency Deters Underage Drinking with Intellicheck's Age ID

JERICHO, NEW YORK – January 30, 2018 – A large southern alcohol law enforcement agency is now using Intellicheck's (NYSE AMERICAN: IDN) Age ID™ throughout the state to boost the enforcement of laws and regulations that prohibit the sale of alcoholic beverages to minors. The agency's law enforcement agents use the industry leading technology solution to scan bar codes on driver licenses and other forms of identification to catch altered and fake IDs, while on enforcement details across the state. Age ID accurately reads unique DMV barcode formats from every U.S. state and populated territory, all Canadian provinces, and all Mexican States where driver licenses include 2-D barcodes.

"We are seeing a growing adoption of Age ID by alcohol law enforcement agencies across the country. We believe that this trend will continue because Age ID has proven to be extremely effective in curbing underage access to age-restricted products," said Intellicheck Interim CEO Bill White. He explained that Age ID is also a powerful prevention tool for restaurants, retail outlets or at any business or event where age-restricted products such as alcohol, tobacco or cannabis are sold. White said the Company expects to see age-restricted venues like casinos and clubs to increasingly adopt Age ID to avoid costly fines, license suspension and even the loss of license that can come with failure to prevent minors from gaining entry by using fake or altered IDs.

The southern agency's 40 law enforcement agents are responsible for the enforcement of laws governing alcoholic beverages and tobacco at manufacturing, distribution and retail sales locations throughout the state. Their enforcement efforts often combine with those of law enforcement agencies at the local, state and federal level to ensure compliance. Establishments that fail to properly validate the identification credentials of their customers face stiff penalties that can include fines, license suspension or loss of license. Initially, ten enforcement agents will be equipped with Age ID.

Age ID verifies the authenticity of driver licenses and other bar-coded, government issued IDs in real-time. It can be deployed on mobile devices including smartphones and tablets as well as integrated at the point of sale. Powerful, economical and easy to adopt and use, Age ID draws on a comprehensive database, updated on an ongoing basis, to ensure information is timely and accurate.

Safe Harbor Statement

Statements in this news release about Intellicheck's future expectations, including: the advantages of our products, future demand for Intellicheck's existing and future products, whether revenue and other financial metrics will improve in future periods, whether Intellicheck will be able to execute its turn-around plan or whether successful execution of the plan will result in increased revenues, whether sales of our products will continue at historic levels or increase, whether brand value and market awareness will grow, whether the Company can leverage existing partnerships or enter into new ones, and all other statements in this release, other than historical facts, are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 (PSLRA). These statements, which express management's current views concerning future events, trends, contingencies or results, appear at various places in this website and use words like "anticipate," "assume," "believe," "continue," "estimate," "expect," "forecast," "future," "intend," "plan," "potential," "predict," "project," "strategy," "target" and similar terms, and future or conditional tense verbs like "could," "may," "might," "should," "will" and "would" are forward-looking statements within the meaning of the PSLRA. This statement is included for the express purpose of availing Intellicheck, Inc. of the protections of the safe harbor provisions of the PSLRA. It is important to note that actual results and ultimate corporate actions could differ materially from those in such forward-looking statements based on such factors as market acceptance of Intellicheck's products and the presently anticipated growth in the commercial adoption of the Company's products and services, changing levels of demand for Intellicheck's current and future products, Intellicheck's ability to reduce or maintain expenses while increasing sales, customer results achieved using our products in both the short and long term, success of future research and development activities, Intellicheck's ability to successfully manufacture, market and sell its products, Intellicheck's ability to manufacture its products in sufficient quantities to meet demand within required delivery time periods while meeting its quality control standards, any delays or difficulties in the Company's supply chain, the success of the Company's sales and marketing efforts coupled with the typically long sales and implementation cycle for its products, Intellicheck's ability to enforce its intellectual property rights, changes in laws and regulations applicable to

the Company's products, the Company's continued ability to access government-provided data, the risks inherent in doing business with the government including audits and contract cancellations, liability resulting from any security breaches or product failure, and other risks detailed from time to time in Intellicheck's reports filed with the SEC. We do not assume any obligation to update the forward-looking information.
