

Intellicheck's Age ID Helps Fayetteville, Arkansas Police Department Put the Lid on Underage Drinking

JERICHO, NY – February 27, 2018 – [Intellicheck](#) (NYSE AMERICAN: IDN), an industry leader in identification authentication solutions, today announced that Fayetteville, Arkansas police officers are using [Age ID™](#) to heighten the enforcement of laws and regulations that prohibit the sale of alcoholic beverages to minors. Age ID authenticates driver licenses and other forms of government-issued identification providing real-time results in spotting altered and fake IDs.

“The purchase of even one alcoholic beverage by a minor is one too many,” said Cpl. Tiffney Lindley of the Fayetteville Police Department. “What’s at risk for these young people is the potential loss of life or life-altering injury that leaves them, their families, friends and everyone in the community devastated.”

“It is critically important that our officers are equipped with state-of-the-art technology to be able to deal with the challenges we face every day in keeping young people from purchasing alcoholic beverages. Age ID gives us the ability to catch the flood of highly sophisticated fake IDs that are so readily available to young people,” Cpl. Lindley explained.

The Fayetteville Police Department includes more than 180 sworn and civilian members who are dedicated to assuring the safety of more than 80,000 residents. Their Underage Alcohol Enforcement Program addresses several areas including compliance checks and bar checks at local establishments. The Cops in Shops program places undercover officers at the doors and drive-up windows of local establishments. The department works closely with Arkansas Alcoholic Beverage Control and University of Arkansas Police Department. The University of Arkansas has a population of over 27,000 students.

“We are proud of the contribution Age ID is making in advancing the efforts to prevent underage drinking by the dedicated men and women of the Fayetteville Police Department. Age ID has earned its reputation for excellence because of the vital difference it is making in enforcement and regulatory compliance for local and state agencies and businesses across the country,” commented Intellicheck CEO Bryan Lewis.

Age ID is seen by many in law enforcement as the most effective identity authentication and age verification technology solution available. Easy to adopt and use, Age ID verifies the authenticity of driver licenses and other bar-coded, government issued IDs in real-time with 99.9% accuracy. It can be deployed on mobile devices including smartphones and tablets as well as at the point of sale.

Safe Harbor Statement

Statements in this news release about Intellicheck's future expectations, including: the advantages of our products, future demand for Intellicheck's existing and future products, whether revenue and other financial metrics will improve in future periods, whether Intellicheck will be able to execute its turn-around plan or whether successful execution of the plan will result in increased revenues, whether sales of our products will continue at historic levels or increase, whether brand value and market awareness will grow, whether the Company can leverage existing partnerships or enter into new ones, and all other statements in this release, other than historical facts, are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 (PSLRA). These statements, which express management's current views concerning future events, trends, contingencies or results, appear at various places in this website and use words like "anticipate," "assume," "believe," "continue," "estimate," "expect," "forecast," "future," "intend," "plan," "potential," "predict," "project," "strategy," "target" and similar terms, and future or conditional tense verbs like "could," "may," "might," "should," "will" and "would" are forward-looking statements within the meaning of the PSLRA. This statement is included for the express purpose of availing Intellicheck, Inc. of the protections of the safe harbor provisions of the PSLRA. It is important to note that actual results and ultimate corporate actions could differ materially from those in such forward-looking statements based on such factors as market acceptance of Intellicheck's products and the presently anticipated growth in the commercial adoption of the Company's products and services, changing levels of demand for Intellicheck's current and future products, Intellicheck's ability to reduce or maintain expenses while increasing sales, customer results achieved using our products in both the short and long term, success of future research and development activities, Intellicheck's ability to successfully manufacture, market and sell its products, Intellicheck's ability to manufacture its products in sufficient quantities to meet demand within required delivery time periods while meeting its quality control standards, any delays or difficulties in the Company's supply chain, the success of the Company's sales and marketing efforts coupled with the typically long sales and implementation cycle for its products, Intellicheck's ability to enforce its intellectual property rights, changes in laws and regulations applicable to the Company's products, the Company's continued ability to access government-provided data, the risks inherent in doing business with the government including audits and contract cancellations, liability resulting from any security breaches or product failure, and other risks detailed from time to time in Intellicheck's reports filed with the SEC. We do not assume any obligation to update the forward-looking information.
