

## **Intellicheck's Law ID Now Available to Delaware Law Enforcement Agencies**

*Leading Technology's Delaware Switch to Nlets Connectivity Complete*

JERICHO, NEW YORK – February 13, 2018 – [Intellicheck](#) (NYSE AMERICAN: IDN), a trusted industry leader in real time identification authentication and threat identification technology solutions, today announced that [Law ID®](#) is now integrated with the Delaware state switch. The Delaware state switch is a key component of the Delaware criminal justice network, which is integral to connecting state law enforcement officers with other state and federal law enforcement databases to share information. Law enforcement officers use Law ID on mobile devices to scan a driver license for identity authentication and other law enforcement information while maintaining visibility with the contact.

This achievement means Law ID is now enabled between Nlets, the premiere International Justice and Public Safety Network, and the state of Delaware, allowing law enforcement officers across the state to use the state-of-the-art technology solution to rapidly and economically access the crucial data they need on individuals during law enforcement encounters. Nlets has been the primary mechanism for interstate law enforcement data exchange for 50 years.

“Law ID is a real game changer. It allows law enforcement users to confidently confront the challenges and threats they face daily and better protect themselves and the communities they serve. In the near future, we anticipate the announcement of the first of what we expect will be many new partnerships with law enforcement agencies across Delaware,” said Intellicheck Interim CEO Bill White.

White noted the Company is also moving forward on switch activations in other states. “We are actively engaged in achieving switch connectivity in 14 other states. We expect to be making announcements regarding our progress on some of these engagements in the coming weeks,” he said.

Law ID provides real-time authentication of scanned identifications on a smartphone or tablet and queries law enforcement data sources, enabling law enforcement personnel to quickly view highlighted, vital query responses without losing contact with persons unknown to them during an encounter. Query responses include wanted person information, gang involvement, known or suspected terrorist data, violent felon information and other person-related records in the FBI's National Crime Information Center (NCIC) databases. Photos of encountered subjects are also included, where made available by the states, as well as search results of an individual's driver license. Officers can also obtain vehicle registration data as well as check whether items officers encounter such as articles, boats, weapons, vehicles, and vehicles license plates are reported stolen.

**Safe Harbor Statement**

Statements in this news release about Intellicheck's future expectations, including: the advantages of our products, future demand for Intellicheck's existing and future products, whether revenue and other financial metrics will improve in future periods, whether Intellicheck will be able to execute its turn-around plan or whether successful execution of the plan will result in increased revenues, whether sales of our products will continue at historic levels or increase, whether brand value and market awareness will grow, whether the Company can leverage existing partnerships or enter into new ones, and all other statements in this release, other than historical facts, are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 (PSLRA). These statements, which express management's current views concerning future events, trends, contingencies or results, appear at various places in this website and use words like "anticipate," "assume," "believe," "continue," "estimate," "expect," "forecast," "future," "intend," "plan," "potential," "predict," "project," "strategy," "target" and similar terms, and future or conditional tense verbs like "could," "may," "might," "should," "will" and "would" are forward-looking statements within the meaning of the PSLRA. This statement is included for the express purpose of availing Intellicheck, Inc. of the protections of the safe harbor provisions of the PSLRA. It is important to note that actual results and ultimate corporate actions could differ materially from those in such forward-looking statements based on such factors as market acceptance of Intellicheck's products and the presently

anticipated growth in the commercial adoption of the Company's products and services, changing levels of demand for Intellicheck's current and future products, Intellicheck's ability to reduce or maintain expenses while increasing sales, customer results achieved using our products in both the short and long term, success of future research and development activities, Intellicheck's ability to successfully manufacture, market and sell its products, Intellicheck's ability to manufacture its products in sufficient quantities to meet demand within required delivery time periods while meeting its quality control standards, any delays or difficulties in the Company's supply chain, the success of the Company's sales and marketing efforts coupled with the typically long sales and implementation cycle for its products, Intellicheck's ability to enforce its intellectual property rights, changes in laws and regulations applicable to the Company's products, the Company's continued ability to access government-provided data, the risks inherent in doing business with the government including audits and contract cancellations, liability resulting from any security breaches or product failure, and other risks detailed from time to time in Intellicheck's reports filed with the SEC. We do not assume any obligation to update the forward-looking information.
