

California's Woodstock's Pizza Selects Intellicheck's Age ID to Prevent Alcohol Sales to Minors

JERICHO, NEW YORK – March 1, 2018 –California's Woodstock's Pizza is using Intellicheck's (NYSE AMERICAN: IDN), Age ID™ to prevent the sale of alcoholic beverages to minors. The popular California restaurant is currently using Age ID at two locations including its high traffic restaurant near San Diego State University and UC Santa Barbara. Age ID will be deployed to all seven Woodstock's locations in northern and southern California by the end of the year. Age ID quickly and accurately authenticates driver licenses and other forms of government-issued IDs to spot altered and fake IDs.

"Our mission is to earn loyal customers who uniquely regard Woodstock's as the Ultimate Pizza Experience. Our values as responsible members of the communities we serve include our dedication to assuring underage guests do not have access to alcoholic beverages. For all of us at Woodstock's Pizza, assurance goes beyond regulatory compliance. It is about our core commitment as a family-owned business," said Vice President/Operations Manager Tom Soucek.

Headquartered in San Diego, California, Woodstock's Pizza is the number two ranked independent pizzeria in the U.S. based on sales. The award-winning restaurants' accolades include recognition in San Diego, California as San Diego's Best Pizza, Best Family Restaurant, Pizza King of San Diego, and San Diego State University's Best Pizza Place and Favorite Hangout.

Intellicheck CEO Bryan Lewis said Woodstock's Pizza has chosen the industry leading technology solution to prevent the use of fake IDs when purchasing alcoholic beverages in their restaurants. "We are excited about our partnership with Woodstock's Pizza. Age ID is providing Woodstock's Pizza with the same powerful solution that has proven so effective for other businesses that sell age-restricted products and are committed to meeting their social and regulatory responsibilities. Age ID resolves the challenges of identifying sophisticated fake IDs, while delivering a seamless customer experience," noted Lewis.

Age ID authenticates IDs and verifies age information in real-time with 99.9% accuracy. It can be deployed on mobile devices including smartphones and tablets and can be integrated with point-of-sale solutions. The cutting-edge technology solution draws on a comprehensive, proprietary database, updated on an ongoing basis, to ensure information is timely and accurate.

Safe Harbor Statement

Statements in this news release about Intellicheck's future expectations, including: the advantages of our products, future demand for Intellicheck's existing and future products, whether revenue and other financial metrics will improve in future periods, whether Intellicheck will be able to execute its turn-around plan or whether successful execution of the plan will result in increased revenues, whether sales of our products will continue at historic levels or increase, whether brand value and market awareness will grow, whether the Company can leverage existing partnerships or enter into new ones, and all other statements in this release, other than historical facts, are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 (PSLRA). These statements, which express management's current views concerning future events, trends, contingencies or results, appear at various places in this website and use words like "anticipate," "assume," "believe," "continue," "estimate," "expect," "forecast," "future," "intend," "plan," "potential," "predict," "project," "strategy," "target" and similar terms, and future or conditional tense verbs like "could," "may," "might," "should," "will" and "would" are forward-looking statements within the meaning of the PSLRA. This statement is included for the express purpose of availing Intellicheck, Inc. of the protections of the safe harbor provisions of the PSLRA. It is important to note that actual results and ultimate corporate actions could differ materially from those in such forward-looking statements based on such factors as market acceptance of Intellicheck's products and the presently anticipated growth in the commercial adoption of the Company's products and services, changing levels of demand for Intellicheck's current and future products, Intellicheck's ability to reduce or maintain expenses while increasing sales, customer results achieved using our products in both the short and long term, success of future research and development activities, Intellicheck's ability to successfully manufacture, market and sell its products, Intellicheck's ability to manufacture its products in sufficient quantities to meet demand within required delivery time periods while meeting its quality control standards, any delays or difficulties in the Company's supply chain, the success of the Company's sales and marketing efforts coupled with the typically long sales and implementation cycle for its products, Intellicheck's ability to enforce its intellectual property rights, changes in laws and regulations applicable to the Company's products, the Company's continued ability to access government-provided data, the risks inherent in doing business with the government including audits and contract cancellations, liability resulting from any security breaches or product failure, and other risks detailed from time to time in Intellicheck's reports filed with the SEC. We do not assume any obligation to update the forward-looking information.
